

Girl Mysteriously Disappears While on Visit to New York

MISS BELLE COLVILLE.

New York, Aug. 14.—The relatives of Miss Belle Colville, the daughter of wealthy parents living in Scranton, Pa., are now in New York searching for the girl who has not been heard of since April 15, when she came to visit an aunt in this city. Leaving her home in Scranton, she visited friends in Jersey City, and then was seen by friends in New York. They lent her a car to ride to her aunt's residence, and all trace has since been lost of the girl.

COCHISE AND GRAHAM TO IMPROVE ROADWAY

Money Will be Raised at Athletic Meets to be Given Simultaneously in Three Towns.

Bisbee, Ariz., Aug. 14.—F. M. Smith, clerk of the superior court, M. Smith, ex-recorder; Adolph Foote, road superintendent; and J. Henler, a prominent rancher, all of the Safford district, were in the city by auto, arranging for a novel good roads "boost." The Safford men want Cochise county to see to the grading of a 20 mile strip to the south, while Graham county puts a like distance into condition to the north of the county line. To this end the boosters have arranged for big sport cards to be staged at Tombstone.

Bisbee and Douglas simultaneously to raise the necessary fund. The event here will be a wrestling match, for a \$500 purse, in which McCallister, a well known local mat artist, will be the star. His opponent not as yet having been chosen. The strip of road to be repaired will connect the two counties and will also connect a large section directly with the state highway. In order that additional evidence may be secured, the case of Augustus Daley, charged with violation of the white slave act before United States commissioner J. D. Taylor, has been set over until August 18.

Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

How the Remedy for Catarrh "Was Discovered."

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the vicious germs that cause the trouble have been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he could not prevent the trouble beginning all over again.

On test cases, he could completely remove all signs of Catarrh from nose and throat, but in a few weeks they were back.

Goes to the Root of

Stopped-up nose
Constant "frog-in-the-throat"
Nasal discharges
Hawking and spitting
Sneezing at night
Bad breath
Frequent colds
Difficult breathing
Smothering sensation in dreams
Sudden fits of sneezing
Dry mucus in nose
and any of the other symptoms that indicate approaching or present catarrh.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Catarrh would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary method of treatment and has provided a remedy that

Kills the Germs in the Blood
and immediately gives relief to the nose and throat.

He perfected the New Combined Treatment, since admitted to be the logical, sure, scientific method. Jesse Jones, of Scranton, Penn., says that after trying many other treatments, he used this new method and his nose is now entirely clear and free and I am not bothered by the disease any more. The New Combined Treatment is worth its weight in gold.

Temporary relief from catarrh may be obtained in other ways, but the New Combined Treatment must inevitably be accepted for permanent results.

ENLARGING FOR THE OFFICERS

Enlargement of Fort Bliss Will Include Innovation For Commanders.

Contemplated improvements involving the expenditure of \$230,000 will be the first step that will be taken in the process of transforming Fort Bliss from a battalion post to a regimental cavalry post. Capt. E. W. Hartman, of the United States army quartermaster's corps at Washington, D. C., was expected to arrive today to superintend and supervise the taking of the first step.

According to the present policy, \$230,000 is to be expended for the erection of officers' quarters, that being the first step towards the enlargement of Fort Bliss. Barracks, stables, barns and other improvements are to be made later. A portion of the barracks may be included in the work expected to be done at this time. Later on the barracks will be enlarged so as to accommodate the force that is expected to be kept at the post when the change in its station has been made. Capt. Hartman's visit at this time is to call for bids on the construction work of the officers' quarters.

Thirty Bungalows for Officers. With the proposed erection of the officers' quarters, comes the final blow to the regulation residence of the post that has been in existence since the beginning of the day of army posts. Fort Bliss is to be the first post to take the modern step, for the officers' quarters now under consideration consist of modern bungalows, five and six rooms, with bath and built-in features. There will be at least 30 of them, and of these bungalows built. These will be for the captains and lieutenants. Four will be added for field officers. If present plans carry, it will possibly not be longer than three months before the actual construction of the bungalows will be started. After the completion, and by next year, the additional barracks, stables and barns are expected to follow.

Will Spend \$234,000 in All. With the carrying out of these plans a total of \$234,000 will have been spent this year at the post for improvements. Improvements now under way, when completed, will cost \$40,000. These include the addition of a new hospital and the isolation ward. The work thus far done on both has reached the stage where the foundation and brick has been brought to the surface line. The addition to the hospital includes two wards and a basement. Each ward will accommodate 12 beds. The isolation ward, east of the hospital and separated from it, when completed will accommodate 10 beds. It will also have a basement.

The two wells, one completed, and the second expected to be brought in some time Thursday, will cost the expenditure of \$10,000. The capacity of the well already flowing is 400 gallons a minute. It is said that the completion of the second well for a greater capacity than that are excellent.

As Assistant Quartermaster. Lieut. Raymond Bamberger, of the Second cavalry, has been appointed assistant quartermaster at Fort Bliss. He recently came here from New York. Lieut. Bamberger has also been appointed ordnance officer. His duties will be such as to supply the troops stationed along the international boundary line with arms and ammunition.

Sequel To Love for Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fancy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wonderful of all transformations.

Now comes a more serious period when the joy of real motherhood should be as tranquil as best effort can provide.

This is accomplished with a wonderful remedy known as Mother's Friend, an external application so penetrating in its nature as to thoroughly lubricate every cord, nerve, muscle and tendon involved.

There will be no pain, none of that nausea or morning sickness, no sensation of distress or strain of expanding muscles. The nerves, too, will be calm, thus making the period one of restful days and peaceful nights.

Mother's Friend is sold at all drug stores at \$1.00 a bottle. Do not fail to use it regularly as directed. Write to-day to Bradfield Regulator Co., 235 Lamar Bldg., Atlanta, Ga., for their valuable book for expectant mothers.

The Individual Customer

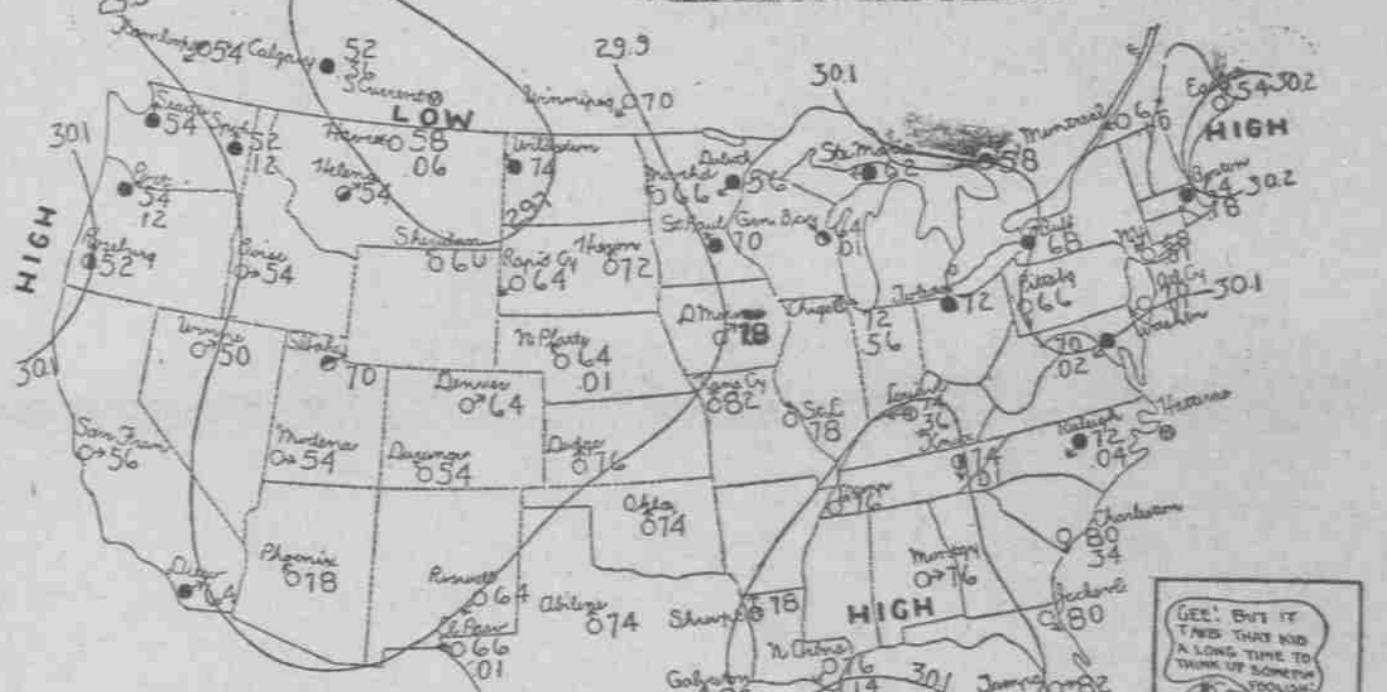

comes but rarely to our store. The furniture we sell him is with him every day and it is from that he forms his opinion of us. We realize we cannot achieve permanent success through the patronage of the casual buyer, and that we must offer to every prospective customer furniture just a little bit better than seems necessary—furniture in which there is nothing lacking—nothing superfluous. Then, when he wants more furniture, be it in six months or a year, he returns to us instinctively.

It is to a rigid adherence to this policy we attribute such measure of success as we have attained.

One Man Known as "The Indian," Is Badly Injured; Firemen Hurt; Horse Killed by Lightning.

Bisbee, Ariz., Aug. 14.—Albert Hansen, known as "The Indian," lies at the Copper Queen hospital in a critical condition, and Charles Boggs, together with the two Skinner brothers and a man named Frank Ballard, are held in the Lowell jail, as the result of a shooting in the railroad cut near the Briggs shaft. Hansen has a bullet lodged a few inches below his heart and is expected to die.

The gun found after the shooting was a .35 Colt. The case will come up in Justice Smith's court in Lowell. An early morning fire at the Bisbee Fuel and Feed company barns at the slag dump caused damage amounting to \$800, part of which is covered by insurance. Excavation at the slag dump had put the road out of commission and the firemen had to pull the hose up the dump, which offered poor footing. The barns are of corrugated iron and the firemen were burned in grasping the hot iron for support on the slippery dump.

Thomas Shoemaker, third vice president of the Southwestern, was in the city on an inspection trip and announced that, within 40 days, the crack El Paso & Southwestern-Rock Island flyer from Chicago would be operating over the Southwestern lines to Tucson. This has been expected for some time, but the statement by Mr. Shoemaker is the first official one.

A fine horse belonging to Lieut. Herwig, of the border patrol at Naco, was struck by lightning and instantly killed. Other horses in the corral at the time were unharmed.

Joshua Collins, a resident of the district for a number of years, was taken to Tombstone by deputy sheriff Gannon for observation as to his sanity.
